

The money changer

The original from krauth technology

We have been manufacturing the original money changer to the highest standards of precision at the Eberbach facility for more than 80 years. Ease of use, rugged design, and a long service life are the quality features that characterise the krauth money changers.

Whether in buses, taxis or as a belt pouch – the money changer has virtually unlimited applications as a quick, convenient and secure method of storing and dispensing cash.

- Light pressure point for the buttons
- Optimised coin flow to prevent coins jamming
- Sturdy, industry-tested mechanics
- All components made of non-rusting material
- Service-friendly due to individually mounted hoppers and money tubes
- Money changer interlocking system – fits exactly with the pay desks
- Long service life guarantees safety of investment
